Cozy up with your favorite tea but take it to the next level with this hot toddy! Simply add lemon, bourbon, and Not Just Caramel and you've got yourself a treat. Definitely not your average hot toddy.

Hot toddy's are best in the winter or on a cold night and really hit the spot because the ingredients are light but extremely comforting at the same time. The caramel here balances nicely with the tart lemon and cuts the bourbon or whiskey perfectly. We love to use Bulleit bourbon but any bourbon or whiskey will do the trick.

1 bag of your favorite tea
